

Christian Dagale

IT Specialist · Azure Administrator (AZ-104) · Network & Systems

Las Piñas, Metro Manila dagale.codes@gmail.com Portfolio website: christiandagale.com
linkedin.com/in/christian-dagale github.com/dagalecodes

SUMMARY

IT specialist with 6+ years across ISP field engineering, network administration and end-user support, now focused on Microsoft Azure. AZ-104 certified, and builds cloud projects end to end — including a serverless resume site on Azure (Functions, Cosmos DB, GitHub Actions CI/CD) and a cost-governance platform with automated anomaly detection. Looking for a cloud or network engineering role.

CERTIFICATIONS

Microsoft Certified: Azure Administrator Associate (AZ-104)

May 2025

Credential ID AD8AA54C22042431

Microsoft Certified: Azure Fundamentals (AZ-900)

Jan 2025

EXPERIENCE

IT Specialist · Marketrole (Gem Data Solutions Inc.)

Feb 2024 – Present

Makati City

- Administer the company network: configure and maintain iKuai routers and Cisco and Huawei switches.
- Built and configured a Zabbix monitoring server tailored to the company network, tracking performance and latency with automatic Telegram/SMS alerts for server and router issues.
- Monitor network performance and detect anomalies using Zabbix and Fortinet firewalls.
- Implemented and manage IP-Guard endpoint security to prevent unauthorized access, monitor user activity, and protect sensitive company data.
- Maintain user, group, and computer accounts in Active Directory.
- Deploy new workstations and network CCTV/NVR systems; support hardware, peripherals, VPN, work phones, and software, including antivirus and Microsoft Office rollouts.

IT Support (project-based) · Ponymuah Scoutstaff

Jul 2023 – Nov 2023

Pasay City

- Built and deployed 40 game client servers for a sports game (football, NBA2K) running 24/7, working with a UK development team.
- Monitored live streams and maintained system and network stability.
- Resolved technical issues for the developer team and clients via chat support.
- Installed and configured hardware, software, networks, printers, and scanners.

Technical Engineer · Digital Network Access Inc.

Oct 2021 – Feb 2023

Mandaluyong City · field assignment in Samar (Region 8)

- Completed a Dense Wavelength Division Multiplexing (DWDM) project on 2 loops across 26 Globe Telecom towers, increasing internet speed and capacity for residential and business users.
- Upgraded and installed equipment in Globe towers to improve internet performance.
- Installed, configured, and maintained internet connections for Globe Telecom clients.

IT Support Staff · Samu't Sari Creative Enterprises

Jan 2020 – Aug 2021

Borongan City, Eastern Samar

- Monitored and maintained systems and networks; diagnosed and resolved system, network, software, and hardware issues for staff.

PROJECTS

Azure Cloud Resume · christiandagale.com 2026

- Static resume on Azure Blob Storage behind Cloudflare (DNS, HTTPS), with a live visitor counter built on Azure Functions and Cosmos DB, deployed automatically by GitHub Actions.

Azure Cost Governance Platform 2026

- Serverless platform with automated cost-anomaly detection across Azure subscriptions; Logic Apps auto-remediation workflows reduce unexpected cost spikes. Azure Functions, Cost Management API, Azure Monitor, Log Analytics, Python.

Taski — collaboration & messaging app · app.taskichat.com 2026

- Real-time web app (Node.js, Express, Socket.io, PostgreSQL, JWT): direct and group chat, file sharing, tasks, notifications, reactions, read receipts, and presence.
- Shipped the Next.js landing page on Cloudflare Pages with a custom domain, and a Flutter mobile app with offline-aware caching (Drift/SQLite) and push notifications.

Water Billing System · capstone 2019

- PHP/MySQL web system that streamlined water billing for a local government unit's treasury office.

SKILLS

Cloud	Azure Storage, Functions, Cosmos DB, Virtual Machines, VNet, NSG, Load Balancer, Monitor, Entra ID, App Service, Logic Apps, Cost Management · Cloudflare
Networking & security	Cisco, Huawei, Ruijie routing & switching · FortiGate firewall · VPN · Zabbix monitoring · Peplink · Ubiquiti
Systems	Windows Server, Linux, Active Directory, virtualization, Windows and macOS support
DevOps & code	GitHub Actions, Git, Azure CLI, ARM templates, PowerShell, Python, JavaScript/Node.js

EDUCATION

BS Information Technology 2016 – 2020
Eastern Samar State University, Main Campus, Borongan City

TRAINING

- AZ-104 Azure Administrator Exam Prep (Udemy)
- AZ-104 Azure Administrator course with simulations (Udemy)
- Master Cisco CCNA 200-301: All-in-One (Udemy)
- Computer Networks Fundamentals (Udemy)
